Workshop 5: Podcast "Kein Einzelfall" on equality and anti-discrimination in the academic environment

- *Who offers the workshop:*
Narges and Johanna
<https://www.instagram.com/keineinzelfall2022/>
- *Motivation to conduct this workshop:*
With the podcast, we would like to draw attention to a matter that has been little highlighted so far: In science and (professional) universities, people and groups of people are treated unfairly or not respectfully, e.g. because of their gender or identity, skin color, social origin or appearance. This concerns the interpersonal level and also the structural, systematic level. We would like to get into conversation with people and make the topic more visible - and we do this with this podcast.
- *Focus Topics:*
equality and anti-discrimination.
- *Format of Workshop:*
It has a participatory format! This means that we will also include our own WhatsApp group, signal group, discussion rounds and interviews. We will collect experience reports, ideas, opinions and suggestions for solutions and thus finally give the topic more space and hearing!
